

**The Loft Galleries Present
Uran Snyder & Sharon Corsaro
“Giving Voice to Vision”**

...Life Drawing Exhibit with Special Live Performance...

In a rare showing, Uran Snyder's larger-than-life figure drawings will be on display in San Pedro, March 2-25, 2006. Literally filling the walls of Gallery A at The Loft, the series of works in charcoal on paper portray universally felt human conditions with quiet introspection. In a unique artistic experiment, at select times, a new dimension is added with spontaneously created live performance by Vocal Expressionist Sharon Corsaro. Bringing characters alive off the page with her unique craft of VocalArt, Corsaro gives voice to that which is unspoken, thru vast vocal expression. A unique partnering of two powerful artists and their mediums—charcoal works by Snyder & VocalArt by Corsaro—for a dynamic combo sure to present a heightened visual and auditory emersion, well beyond words.
